

Portofino Natural Park . GENOVA

PORTOFINO LANDSCAPES

Protection and evolution of a natural area modelled and preserved by man

Leaving from Portofino Kulm and arriving in San Fruttuoso di Camogli, the trip will pass through the environmental diversity of Portofino Natural Park: from north mesophilous woods to the Mediterranean coastal rocky cliffs, the excursionists will pass the day surrounded by sclerophyllous forests, lush Mediterranean shrubs, agricultural areas and important cultural landmarks. Biodiversity and ecosystem dynamisms as well as issues related to conservation of such fragile heritage will be explained also with the support of Park staff.

DESTINATION Portofino (GE), San Fruttuoso and Camogli (GE)

DATE Wednesday July 3rd, 2019

OTHER INFO AND EQUIPMENT SUGGESTED

Trekking shoes are necessary. Please consider that we will walk on hiking trails and cross terrain with exposed rock faces.

Waterproof jacket in case of rain, long and light trousers, light excursion clothing, hat and sunscreen are strongly recommended.

Bathing suit is suggested (beach stop in San Fruttuoso).

NB. In case of rough sea and suspension of the ferry service, the excursion will exclude San Fruttuoso and, from *Piete Strette*, hikers will reach *Toca* and *Semaforo Nuovo*, then return to Camogli passing by *San Rocco*.

EXCURSION COORDINATORS Chiara Montagnani, Emilio Padoa-Schioppa
