

City of Milan

## URBAN AND PERI-URBAN FORESTS OF MILAN

The city of Milan offers a great variety of urban green areas: ranging from small centre gardens to large peri-urban parks of high ecological value.

The half day excursion is intended to give an overview on different urban parks' designs: from one side a large park with water of high naturalty imbedded within the city (*Parco delle Cave* or *Quarry's Park*), and from the other one of the most recent urban park, the *Library of Trees*, in the city centre. We will focus on both the ecological and the social aspects, highlighting differences and strengths of the two type of areas.

The half-day excursion will end in the city centre, so that participant can continue the visit of Milan on their own. Very close to the Library of Trees there are the *Vertical Forest* (the famous building designed by the architect Stefano Boeri), the *Sempione Park* (the most important historical park of the city), and other interesting sites that will be introduced.

**DESTINATION** *Parco delle Cave* and *Library of Trees*, Milan

**DATE** Wednesday July 3rd, 2019

**DEPARTING TIME** 8:30 AM

**MEETING POINT** To be confirmed

**DURATION** half-day approx. 5 hours

**TRANSPORT** Milan public transportation (ATM)

MIN. 10 MAX. 30 participants

Nature and society facing the Anthropocene  
challenges and perspectives  
for landscape ecology
